ASHLEY PIMENTA & ERIKA PUUMALA | 2018

# [ALIEN CONSPRACY]

.

### [THE TRUTH BEGINS HERE]

THE CONSPIRACY OF EXTRATERRESTRIAL LIFE FORMS

### OUTLINE

There are many speculations of "aliens" seen on planet earth. These visitors from outer space. For centuries people have studied these mysterious life forms in hopes of discovering the truth. From reported abductions to unidentified flying saucers, our unknown visitors have an eerie reputation spreading the fear that this entire planet will one day be invaded and destroyed.

Aliens are similar to humans in the fact that they are not inherently good or evil, but both extremes exist together. The Central Intelligence Agency and government are aware and are in contact with these unearthly lifeforms, they even signed a "peace treaty" with the bad aliens. This treaty states that "Extra terrestrial beings are permitted to abduct certain amount of people in a year in exchange for their unearthly intelligence.

The government demands complete control and denies any knowledge of extraterrestrial existence. After hearing the initial reports of "alien abductions" from many people the government began to create cover up stories. They initially encouraged the thought of aliens causing chaos and complete destruction by began creating propaganda invasion posters. The more questions people began to ask, the more excuses the government began to easily create.

# BRIEF

As the government began to propagate the violent reputation of the unearthly's, the good intentioned aliens tried to create a connection with certain humans on Earth with the hopes that they have efforts of coexisting together. These mysterious life forms are visiting to save our intergalactic planet from us self-destructing our only home. Their time is more important than destroying Earth when they have the knowledge, technology and resources of being in their own universe/dimension. These life beings are time travelers, curiously intelligent and capable of telepathy.

These unearthly beings are not from another planet, but a separate multiverse. They exist in a world that is just next door. All humans possess a certain level of consciousness, with some people inherently more open minded to the idea of otherworldly lifeforms. These are the people who are more likely to be contacted by the extraterrestrials. We won't know when we are able or ready to be contacted because the aliens intelligence is far beyond our comprehension.

The government keeps secrets from us and it's honest to say that aliens are already here.

### PROJECT GOALS

The priority of this project is to expose the truth about the of extraterrestrial life and prove to everyone that the government cannot be trusted. While some of the deliverables will be focused on exposing the truth, others will also be government created propaganda trying to cleverly cover things up.

# BRIEF

### RESEARCH

There will be heavy amounts of research on past abduction sites, reported sightings, crash landings and the overall existing ideas surrounding aliens and space. We will conduct research on genuine government top secret documents.

We will also reveal(design) the aliens' hieroglyphic language by studying Egyptian artifacts and show how it's connected crop circles, the stonehenge and more. This will all be revealed throughout our deliverables.

### DELIVERABLES

- 1. Posters (x3)
- 2. Postcards (x3)
- 3. Project blue book jacket??
- 4. "Old" newspaper articles
- 5. Brochure/map
  - i. Red dot: abduction sites
  - ii. Blue dot: crash landings
  - iii. Purple dot: reported sightings
- 6. Anonymously released video (motion media)
- 7. Alien creation book/pamphlet collection (x3)
  - i. The amazing pyramids
  - ii. Stonehenge
  - iii. Crop circles
- 8. Xeroxed signed peace treaty with the 'greys'

BRIEF

### SCHEDULE

Class 2w	Get Casem's feedback on topic, begin heavy r

Instructions for the use of the Olivetti Lettera 22 typewriter

#### To prepare the machine for use

- After removing all the cardboard and paper packing, these simple a) Make sure that the corriage locking lower **7** is unlocked.
   b) Make sure that the corriage locking lower **7** is unlocked.
   b) Maye the corriage return and line space lower **6** into its working.
- position. () Make sure that the silbon colour change lover 18 is in the blue
- (or red) position. d) The line space selector **9** must be in one of the slots 1, 2 or 3. e) Make more that margin steps **11** are at opposite ends of the

#### How to insert the paper

The insert paper, lift the built rod 1.3 and slide the paper behind the platen (caller), turning the platen until the paper energes at the front. If the paper needs to be straightened, pull paper robuse forw 16 forward, adjust the paper and push back lever 16. The machine is new ready for use,

#### WINDSOR 10 characters per inch 5.4 lines to vertical inch Code: 367

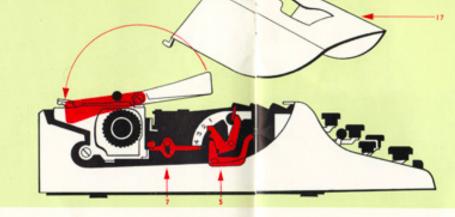

Windsor Type is especially created for Executive Correspondence. Makes excellent copies. ABCDEFGHIJKLMNOP QRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 1234567890

#### MERIT PICA 10 characters per inch 6 lines to vertical inch Code: 378

Merit Pica has distinction for executive correspondence and versatility for all office applications. ABCDEFGHI JKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 1234567890

#### CONTEMPORARY PICA 10 characters per inch 5.4 lines to vertical inch Code: 315

Contemporary Pica is a modern sans-serif style. Excellent for billing and business correspondence. ABCDEFGHIJKLMNOP ORSTUVWXYZ abcdefghijk1mnopqrstuvwxyz 1234567890

#### Detachable Top Cover 17

To remove, hold the cover family at the centre and lift from the front. This gives access to the ribbon spools, to the type for cleaning purposes, and to the rouch tuning derice  $\mathbf{5}$ . Carriage Locking Lever 7

This lever locks the carriage in the central position and prevents it from moving whilst it is being carried. The carriage should be locked every time the typewriter is put into its case. Down to lock, up to unlock. Line Space and Carriage Return Lever G

The corrige rears lever 6 must be hinged forward when using the machine and folded back when replacing it is the carrying case. When herought forward into the working position, it is used to take the carriage back to the beginning of the writing line; at the same time it moves the paper up ready for typing a new line, according to the setting of the line space selector.

or right along the graduated scale, Each division on the scale corresponds to one typing space. Before setting margins, move the stops to left and right ends respectively. Next, move the carriage until the type guide 14 coincides with the point at which you want your left margin to be. Then move the left-hand stop to the right as far as it will go. Reverse the process to set right-hand stop. If you want to type heyond the margin stops in either direction, use the margin release key 4 as shown on page 4.

#### Line Finder 15

The top edge of the *line finder* 15 shows exactly the position of the typing line. Thus it serves as a guide when you are typing on lined paper, and when it is necessary to return to a line after the variable line spacing knob 8 has been used, or when the paper has been replaced after being taken out of the machine. The white marks coincide with the vertical centres of the individual batter.

letters. Vertical or horizontal lines can be drawn by inserting a penell point in one of the corners of the triangular guide, meanwhile revolving the platen for vertical lines, or moving the carriage sideways for horizontal lines.

The ringing of the hell is a warning that there are only a few more spaces before the end of the typing line.

#### The Ribbon

The normal ribbon has two colours, the top half being blue or black and the hottom half red. To switch from one to the other, use the *ribbon* colour *lever* **18** as indicated on page 5. The machine uses a full length ribbon on standard machine size spools. For best results always use an Olivetti ribbon. In an emergency any 1/2 inch wide ribbon can be used provided there is an eyclet at each end of the spool to activate the ribbon reverse.

#### **Ribbon Reverse**

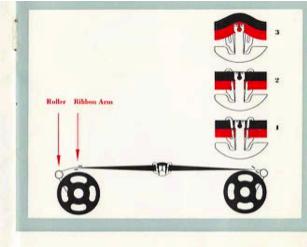

The ribbon moves along automatically each time a key is de-pressed. When it reaches the end of one spool it reverses, also automatically, To wind the whole ribbon on to one of the spools, e.g., when about to change it, just rotate the appropriate spool

#### Variable Line Sparing Knob S

The platem can also be disengaged from the spacing mechanism by pressing this knob. Use this in conjunction with the line finder 1.5 when you wish to start typing at a particular position on the paper, when typing on related forces, or to find the correct alignment when re-inserting into the machine a sheet that has already been typed.

#### Line Space Selector 9

The distance between consecutive lines of typing is determined by the line space solence  $\mathbf{B}$ . This is set in position 1 for single spacing, in position 2 for intermediate spacing, and in position 3 for double spacing. With the line space selector in position 6, the spacing mecha-nism is distengaged and the platent (coller) can be revelved freely by hand to any position. This is used when inserting corrections between lines, or for signs either above or below the writing line, for example:  $II_{2}SO_{p}$ ,  $a^{+}+b^{+}$ , etc.

with the finger. Before doing so, move the ribbon arm as far as it will go away from the roller towards the centre of the machine.

#### Changing the Ribbon

Linking removed the top cover, wind the whole ribbon on to one spool. Then slide the ribbon out of the hooks of the ribbon vibrator (see 1, 2 and 3 above). Unscrew the two knurled nuts which hold the spools in place and take out the two spools. Hook the new ribbon to the empty spool and wind it until the metal eyelet — about 6° from the end — is covered. Replace the spools on their shafts and make sure the two knurled nuts are replaced and tightened, as otherwise the ribbon will not move. Check that the red half of the ribbon is at the bottom. Re-insert the ribbon into the ribbon vibrator.

#### Putting the Machine into its Case

First lock the carriage with the carriage locking lever 7, fold the carriage return lever 6 hack and down.

he term: the essence of Burroughs Corporation, expanding the meaning of compution to new and unique dimensions for the contract team program and airborne, pace, surface and underwater systems. Its breadth: total competence, ranging from asic research through production to the broadest field service support. Its backround: total competence, from 75 years devoted to computation and data processg; from membership on the Polaris and Atlas teams, system-management of the LRI team. Its brain-children: current crop includes the Atlas guidance computers, gh-speed data processing for Polaris and miniaturized airborne computers for ALRI. "he point of purpose: "Computence"-total competence in computation and data rocessing, closing in on a problem with an intensity and range all its own.

# 1950s Type style

#### Lösen der Versandsicherungen

Ehe man auf der Maschine zu schreiben beginnt, sind die Sicherungen, welche für Bahn- und Positransport angebracht worden sind, zu ent-fernen. Nachdem man den Wagenfeststeller 10 (Bild 2) zurück-geklappt hat, bewegt man unter Druck auf den Wagenauslöser (15 oder 5) den Wagen nach links, wobei die eingesetzten Sicherungs-bügel der Wagenführung von selbst herausfallen. Dann schraubt man die vier roten Schrauben in den Ecken des Rohmens (Bild 3) los, wobei auch die vier Unterleg-Ringe frei werden. Beim Wiederversand müssen die Sicherungen unbedingt wieder angebracht werden.

#### Abheben vom Kofferboden

Man kann die Maschine leicht vom Badenbrett abheben (Bild 4), sei es, um sie zu reinigen oder um sie auf eine Filzunterlage zu setzen.

#### Zurücklegen der Maschine in den Koffer

Ist die Maschine vom Kofferboden entfernt worden, drückt man die Maschine erst wieder auf die Knöpfe des Bodenbrettes auf und

nearest Yugaslav Consulate General:

#### CAMERA ANIMATION TRUCKS

1

Camera trucks can often create the illusion of animation:

.

0

Tanks moving along an assembly line.

Tanks are on separate exposure and doubled in. Area behind tanks to be darker than tank and with no contrast or else tank will appear transparent.

#### TRUCKING TOWARD A VANISHING POINT

In the case of perspective trucking (such as the tanks) or trucking to a vanishing point, it will be necessary to design the path of the truck toward the vanishing point.

Draw lines from vanishing point to each corner of starting field ..... all fields during a truck in perspective will fall on these lines.

Movement through trucking was used in the swinging bird-cage sequence in Pinocchio. Background was on pivot; consequently, animation of Pinocchio in cage could work on still pegs.

## MAIN HEADER

The Great Pyramids of Egypt are a world-wide phenomenon that millions of tourists flock to see each year. Located in the outskirts of Cairo, Egypt, the Great Pyramids consist of three large pyramids flanked by three queen pyramids. When they were originally built they were even more magnificent, with a smooth outer surface that has since been taken away.

CLASSIFIED INFORMATION NONDISCLOSURE AGREEMENT AN AGREEMENT BETWEEN 44629KOV AND THE I.G.S INTERGALACTIC PEACE TREATY

Australia, Britain, Canada, China, France, India, Ireland, Israel, New Zealand, Saudi Arabia, Soviet Union, Spain, Sweden, Switzerland, South Korea, the United Arab Emirates, and the United Kingdom, hereinafter referred to as the Earth Parties.

The extraterrestrials from planet Xorna hereinafter referred to as the 44629KOV,

International Galactic Society hereinafter referred to as IGS,

Affirming that this Treaty is not intended to affect adversely the security interests of any Party,

Affirming their commitment to continue the control separation process including negotiations, taking into account future requirements for the World's stability and security in the light of new developments in our knowledge of space,

Have agreed as follows:

COVELER BOLD

-spacine Article I

1. Each Earth Party in conjunction with 44629KOV shall carry out the obligations set forth in this Treaty in accordance with its provisions, including those obligations relating to the following 4 categories: abductions, experimentations, dispertion of resources, and use of airspace.

2. All correspondance between the 44629KOV and Earth Parites must be regulated and heavily monitored. This is not to be initiated without consent of all of the Earth Parties.

3. The 44629KOV are permitted to use the airspace in and around the planet Earth at their discretion as long as there is no breach in what is outlined in this Treaty.

4. In exchange for live subjects, 44629KOV will grant the IGS with knowlege of their current technologies and any future developments which occur

4. In accordance with this Treaty, the 44629KOV are not to be harmed in any way including, but not limited to abduction, interrogation, torture, and maiming.

The largest of the pyramids is the Great Pyramid of Giza which, when built over 4,500 years ago, stood at a massive 481 feet. It is estimated that 5.5 million tonnes of limestone, 8,000 tonnes of granite, and 500,000 tonnes of mortar were used for this pyramid alone. Some of these stones were transported from over 500 miles away from quarries where they literally dug up these stones from the earth. More precisely, each stone weighs about 2 tons each. With the pyramids consisting of millions of these heavy stones, it is a daunting task, even in today's day and age.

This map contains a selected number of sites that are connected to unidentified flying objects. Though by no means an exhaustive list, this map delineates some of the most important and well-known U.F.O. sites.

OFFICIAL MAP OF

## UNIDENTIFIED FLYING OBJECTS

Map/brochure

**UFOS** and USOs are extremely important in understanding the history of Planet Earth's past and even future. They have been reported since the second millennium BCE and continue to be noticed flying in our skies to this day. These unidentified flying and submersive objects have been recorded in fine paintings throughout art history and even recorded from pharaohs and kings themselves. These fiery disks, flying saucers, are aware of our planet and are here to help.

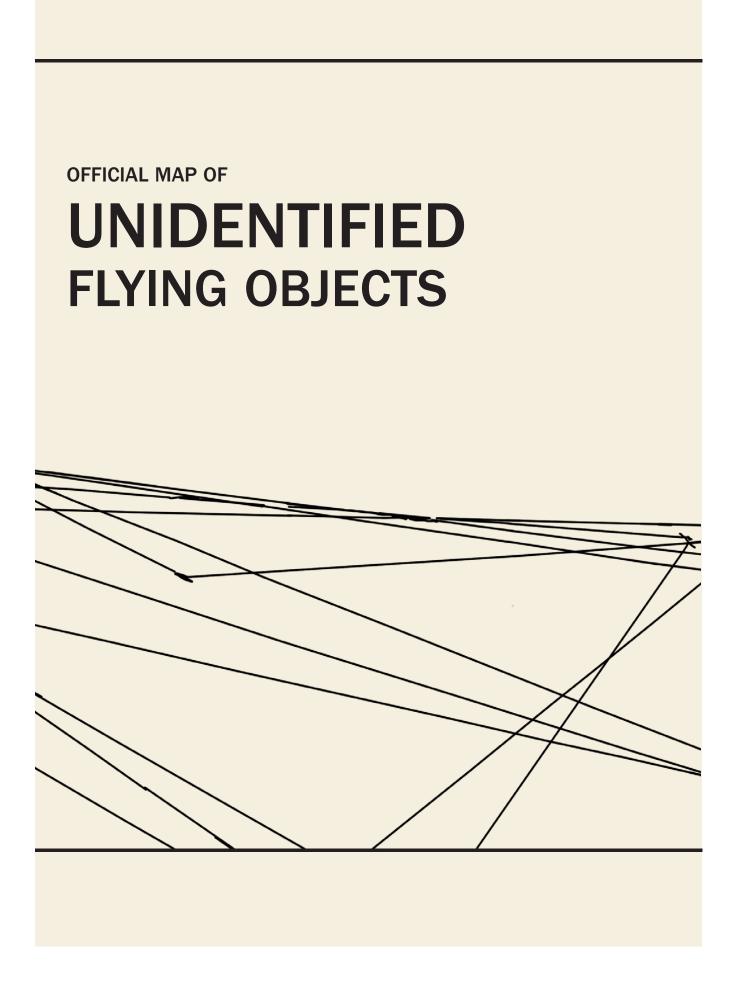

This map contains a selected number of sites that are connected to unidentified flying objects. Though by no means an exhaustive list, this map delineates some of the most important and wellknown U.F.O. sites.

OFFICIAL MAP OF UNIDENTIFIED FLYING OBJECTS

**UFOS** and USOs are extremely important in understanding the history of Planet Earth's past and even future. They have been reported since the second millennium BCE and continue to be noticed flying in our skies to this day. These unidentified flying and submersive objects have been recorded in fine paintings throughout art history and even recorded from pharaohs and kings themselves. These fiery disks, flying saucers, are aware of our planet and are here to help.

This map contains a selected number of sites that are connected to unidentified flying objects. Though by no means an exhaustive list, this map delineates some of the most important and wellknown U.F.O. sites.

### **STATS**

If periodic polls are any indication, Americans have remained consistent on the subject of aliens for the last three decades. At any given moment, roughly 10 percent of Americans believe they've seen a UFO. A Gallup poll from 1990 found that 47 percent of respondents believed UFOs were "real," as in alien. A 2015 poll found that 56 percent of Americans believed in UFOs. American disbelief of the government line on UFOs has also remained steady. In 1996, 71 percent thought the government was hiding something; it was 79 percent in 2012, according to a National Geographic Survey. In other words, more people believe that the US government is covering up evidence of alien life than believe that Jesus is the son of God.

## **PENTAGON'S UFO SECRET**

HEAD OF SECRET 'UFO' OFFICE SOUGHT TO MAKE EVIDENCE PUBLIC.

### BY KIERA BOWEN

Just before leaving his Defense Department job two months ago, intelligence officer Luis Elizondo qui etly arranged to secure the release of three of the most unusual videos in the Pentagon's secret vaults: raw footage from encounters between fighter jets and "anomalous aerial vehicles military jargon for UFOs.

The videos, all taken from cockpit cameras, show pilots struggling to lock their radars on oval-shaped vessels that, on screen, look vaguely like giant flying Tic Tacs. The strange aircraft — no claims are made about their possible origins or makeup appear to hover briefly before sprin ing away at speeds that elicit gasps and shouts from the pilots.

Elizondo, in an internal Pentago memo requesting that the videos be cleared for public viewing, argued that the images could help educate pilots and improve aviation safety. But in interviews, he said his ultimate intention was to shed light on a little-known program Elizondo himself ran for seven years: a low-key Defense Department operation to collect and analyze reported UFO sightings.

The existence of the program, known as the Advanced Aviation Threat Identification Program, was confirmed officially for the first time Saturday by a Pentagon spokesman. The acknowledgment came in response to media inquiries, which were generated in part by a start-up company Elizondo has joined since retirement. The private company specializes in promoting UFO research for scientific and entertainment purposes.

Current and former Pentagon officials confirm that the Pentagon program has been in existence since 2007 and was formed for the purpose of collecting and analyzing a wide range of "anomalous aerospace threats" ranging from advanced aircraft fielded by traditional U.S. adversaries to commercial drones to possible alien encounters. It is a rare instance of ongoing government investigations into a UFO phenomenon that was the subject of multiple official inquiries in the 1950s and 1960s.

Spending for the program totaled at least \$22 million, according to former Pentagon officials and documents seen by The Washington Post, but the funding officially ended in 2012. "It was determined that there were other, higher priority issues that merited funding and it was in the best interest of the DOD to make a change," Pentagon spokesman Tom Crosson explained in a statement.

But officials familiar with the initiative say the collection effort continued as recently as last month. The program operated jointly out of the Pentagon and, at least for a time, an underground complex in Las Vegas managed by Bigelow Aerospace, a defense contractor that builds modules for space stations. It generated at least one report, a 490-page volume that describes alleged UFO sightings in the United States and numerous foreign countries over multiple decades.

Neither the Pentagon nor any of the program's managers have claimed conclusive proof of extraterrestrial visitors, but Elizondo, citing accounts and data collected by his office over a decade, argues that the videos and other evidence failed to generate the kind of high-level attention he believes is warranted. As part of his decision to leave the Pentagon, he not only sought the release of videos but also penned a letter to Defense Secretary Jim Mattis complaining that a potential security threat was being ignored.

### STRANGE OBJECTS SPOTTED IN SKY BY KIERA BOWEN

A UFO filmed shooting through the the sky in Topopah shocked drivers but an expert claims that aliens are monitoring us.

The footage of the mysterious object was shot alongside a busy road and sparked a number of theories about what the vertical flying object was.

A woman who was travelling on the road in the state of Baja California in Mexico uploaded the video to the internet where it was picked up by UFO expert Pedro Ramirez. Mr. Ramirez claimed the potiential UFO was the 'first sighting of 2018.'

He said: 'You can see that the tubula UFO is flying vertically over the city.' He also claims that there has been in creased alien activity during the last two months of 2017. He added: 'Aliens are aware that

we have made a number of space launches recently and have identified that we have been sending up 'war material'.

'Concerned by our activity, they have been increasingly monitoring our planet.

'This year will be very important for those of us who follow this phenomenon closely.

Pedro believes that forthcoming launches by NASA and SpaceX will lead to an increase in UFO sightings. He said: 'Some of these space missions have 'suspicious objectives' that alien beings are aware of.' In the video, a woman can be heard saving

'what is it?' as she follows the UFO

### Government Insider Speaks Out About UFO Cover-Up

### By KIERA BOWEN

About six months ago, our board at UFODATA was privileged to welcome Christopher Mellon a the newest member of our team. Chris spent nearly 20 years in the federal government serving in various national security positions. For the first time, he has agreed to speak publicly about his experiences within government as they relate to UFOs.

It is unusual for a man of Chris's stature to speak openly about UFOs, which gives his statements great weight. His positions during the Clinton and Bush ons involved high clearances; in fact, there are few people who have enjoyed such deep and wideranging access to compartmented programs in both the Defense Department (DoD) and the intelligence community. Chris is the recipient of numerous awards, including the National Reconnaissance Office Gold Medal and the Defense Intelligence Agency Director's Medal.

At DoD, Chris served on a small committee tha provided oversight of all DoD special access programs in order to eliminate potential waste and duplication The oversight included visits to Area 51 and othe sensitive facilities. He also spent over a decade on the Senate Intelligence Committee, involved i oversight of NRO, CIA, NSA and other intelligence organizations. He became the first Congressional official to review all of the NSA's compartmente

I wanted to know what Chris had to say about Hillary Clinton's implications that the government may be withholding classified UFO documents. Backed by John Podesta, chairman of her campaign, Clinton has been speaking about the need to "get to the bottom of the UFO mystery." Her comments are unprecedented within a presidential campaign.

Chris was about seven years old when he saw a old-fashioned amateur movie taken by a friend of his school principal. It showed a huge, golden discshaped object serenely moving through sunny, blue skies, passing through cumulous clouds in a manne that would be very hard to fake. He had no idea what became of the movie, but it filled him with wonder and awe. Chris read everything he could get his hands on afterwards and eventually did a research project on UFOs in college for a physics professor. He remain deeply intrigued.

### 'World's Largest' Public Healthcare Scheme

ALL THE TIME FOR ALL THE NEWS

TOWN OF QUINDARO, I

INDIA, SEP 2017— India has announced an ambitio health insurance scheme, which is designed to be a safety net for millions of people who struggle to afford medica care. It's thought to be one of the largest such scheme in the world, and is likely to be popular with rural voters India presently spends a little over 1% of its GDP

on public healthcare, one of the lowest in the world The announcement came in the annual budget, aimed at boosting growth ahead of a general election next year. Finance Minister Arun Jaitley also allocated billions of dollars for health, education, social security and rural infrastructure. He said the flagship health insurance scheme would cover more than 100 million poor families and provide 500,000 rupees (\$7,825; £5,520) in medical coverage for each family annually.

"This will be the world's largest governmentfunded healthcare programme," Mr Jaitley told parliament in his speech. "The government is steadily but surely progressing towards a goal of universal health coverage." The BBC's Soutik Biswas says although it is laudable to give medical coverage to the poor in a country where quality healthcare costs are prohibitive, what is not clear is how this programme is going to be designed to protect the poor from being exploited by private hospitals.

India's private healthcare system is largely unregulated, opaque and often unscrupulous. It also overcharges patients with impunity, our correspondent adds. "Private hospitals also have a long history of being hostile towards the poor, and not allocating enough mandated cheap beds for them," he says. "It is not clear how the government will be able to

get around this problem - and where the funds from the scheme will come from."

This was a budget for the rural economy with distressed farmers and villagers emerging as the biggest winners. But the finance minister also outlined incentives for others that will help boost growth, create jobs and promote private investment. nment's new National Health Protection Scheme could be a game changer for as many as 500 million people in need and unable to afford healthcare.

But consumers will be affected. Despite Prime Minister Narendra Modi warning against the threat of global protectionism just last week in Davos, he has approved increased custom duties on foreign phones and televisions. Mr Jaitley added India's \$2.5 trillion economy was "firmly on path to achieve 8% plus growth soon". Earlier this week a government forecast said India's growth rate is set to rise over the coming year after a prolonged slowdown. The country's slowdown has been blamed on several factors, including declining exports, falling private investment and declining farm incomes.

Also the sudden cancellation of nearly 86% of the cash in circulation in November 2016 - the effect lasted until 2017 - and glitches in the rollout of a single Goods and Services Tax (GST) had a severe impact on growth.

The Indian government hopes that this will boost local manufacturing in India but tech giants like Apple and Google are bound to lose out too unless they shell out more money to open local manufacturing units. The lowering of corporate tax on small and medium business could boost employment. But on the whole, industry watchers in Delhi have not beer very impressed. Some described the policies as 'token' without much substance.

Current and former Pentagon officials confirm that the Pentagon program has been in existence since 2007 and was formed for the purpose of collecting and analyzing a wide range of "anomalous aerospac threats" ranging from advanced aircraft fielded by traditional U.S. adversaries to commercial drone to possible alien encounters. Official Head Of Pentagon's Secret 'Ufo' Office Sought To Make Evidence Public.

ust before leaving his Defense Department job vo months ago, intelligence officer Luis Elizondo quietly arranged to secure the release of three of the most unusual videos in the Pentagon's secret vaults: raw footage rom encounters betweer fighter jets and "anomalous aerial vehicles" — military

argon for UFOs. The videos, all taken from cockpit cameras, show ilots struggling to lock their adars on oval-shaped vessels that, on screen, look vaguely like giant flying Tic Tacs. The strange aircraft — no claims are made about their possible origins or makeup — appea hover briefly before rinting away at speeds tha icit gasps and shouts from

Elizondo, in an internal ntagon memo requesting hat the videos be cleared fo blic viewing, argued that pilots and improve aviation safety. But in interviews, he said his ultimate intention was to shed light on a littleknown program Elizondo nimself ran for seven years: a low-key Defense Departmen eration to collect and analyze reported UFO sightings.

The existence of the program, known as the Advanced Aviation Threat Identification Program, was confirmed officially for the first time Saturday by a collection effort continued Pentagon spokesman.

The acknowledgment came in response to media inquiries, which were generated in part by a startp company Elizondo has joined since retirement. The ivate company specialize promoting UFO esearch for scientific and entertainment purposes Current and former entagon officials confirm that the Pentagon program

has been in existence since 2007 and was formed for ne purpose of collecting and analyzing a wide range "anomalous aerospace threats" ranging from advanced aircraft fielded b raditional U.S. adversarie o commercial drones to possible alien encounters. I is a rare instance of ongoing overnment investigatior into a UFO phenomeno: that was the subject of nultiple official inquiries ir

the 1950s and 1960s. Spending for the program totaled at least \$22 million, according to rmer Pentagon official and documents seen by The Washington Post, but the funding officially ended in 2012. "It was determined that there were other, highe riority issues that merited inding and it was in the best interest of the DOD to make a change," Pentagon spokesman Tom Crossor explained in a statement

But officials familia: as recently as last month The program operated
